About This Game

The earth is under attack by an unknown terror group with frightfully advance technology. You are in control of the earth's best military group and must save the world against this unknown terror group in incredibly challenging turn-based strategy combat.

Key Features:

- Fight complex turn-based strategy battles against local, online or AI opponents.
- +30 units including improved chess pieces. All units are equipped with unique special abilities and different weapon load-outs.
- Full control over all settings like board size, moves per turn, special abilities, health, damage and turns per unit.
- Challenge your friends to a match.
- In game text chat system.
- Game notifications.
- Online Tournaments.

-
- Single Player Campaign.
